H. V. MORTIMER, . . . . . EDITOR.

LEHIGHTON, PA.

SATURDAY MORNING MAY 2, 1874.

### The Lehigh Emery Wheel Manufactory.

Among the most recent and promising industrial enterprises of the Lehigh Valley, we are pleased to note the abovementioned establishment at Weissport, in our own county of Carbon. The institution is already raising itself into large proportions under the management of the firm of Messrs. Butterfield, Marsh, & Co. They manufacture, beyond question, the best emery wheel now made in connection with the most artistic and improved machines or Grinders upon which to mount the wheels for use.

A visit to their establishment is time well spent; although the most interesting part of it, we are told, is not open to public inspection. There are six private departments, and preparations are now made to build an addition to their main building, to accommodate more machinery already ordered. If appearances indicate anything, (and the men who have told of it are well known and reliable) then the establishment gives promise of becoming one of the leading and most wealthy manufactories of the Lehigh Valley, at no distant day. The prospects for this are based, we think, upon well settled principles of political economy, because an article of such great utility, and in such great demand, and possessing all the desirable qualities can not fail but produce manifold.

Repeated and continued trials have positively demonstrated that, very rapid and free cutting—combined with great durability, absolutely free from all small glazing or gumming and heating—are standard qualities of the newly discovered Lehigh Emery wheels. They make wheels of all sizes and grades from the best quality of Turkey emery. It is very interesting to see the wheels at work. Let a hard file or piece of iron be held up the wheel while in motion and it produces a beautiful circle of fire, and yet neither the metal applied or the wheel will heat, thus making it another great improvement upon all other wheels now manufactured for the purpose of grinding and shaping tools, where the temper of the metal dare not be injured.

We have not the space at our command to give descriptions of the various sizes and peculiarities of their Machines or Grinders, and of the Diamond Tools which they keep on hand. The firm is composed of Messrs. Wm. Wagner and W. M. Hapsher, of Lehigh, and A. W. Marsh and Isaac Butterfield, of Weissport. They expect soon to have all their machinery and matters fully arranged for business. A number of orders, before having sent out circulars or agents, are already on file awaiting their attention. We wish them that full measure of success which is clearly theirs.

A dispatch from Washington, dated, April 26, to the N. Y. Sun, says: The friends of Infidelity have finally agreed upon their programme, and the debate upon the President's message will be very incisive, and no special care will be taken to save the feelings of its author. An address to the country has been prepared, and will be signed by all the Republican Senators and Representatives who favor Infidelity. This will be made public in a few. A square issue is to be made before the country, and the leaders in this movement are confident of success at the fall elections. They claim that they carry every State on this issue save the New England and the Pacific coast States. It is to be a war of the people, they say, against the banks and moneyed institutions. As a first step in this crusade a bill has been prepared and will be introduced in the Senate at an early day restoring the income tax. All salaries and incomes over \$5,000 are to be taxed five per cent., and those over \$10,000 ten per cent. This measure, they claim, can be put through without difficulty, and the President dare not veto it. It will be absolutely necessary to increase taxation. The President admits this, and by the income tax alone can the increased burdens be taken directly from the shoulders of the masses.

Zina Fay Pierce, the daughter of a clergyman in St. Albans, Vt., leads a departure in the temperance movement. She has formed a society, and written for it a creed. The points of her teaching are that the milder forms of liquor should not be classed with the fiery; that beer-drinking and beer gardens should be countenanced by all young ladies; that women should drink malt liquors instead of tea; and that the total abstinence pledge is "a stigma upon the communion, and a direct accusation against the wisdom and morality of our blessed Saviour himself." Zina is young, eloquent, and pretty. Consequently she has many followers.

At a meeting of the Associated Banks of Eastern Pennsylvania, held at Bethlehem, on Tuesday last, the following resolutions were unanimously adopted: Resolved, That this association favors a modification of the National Currency Act, so as to authorize free banking under reasonable restrictions, allowing circulating notes equal to the current market value of the bonds pledged for their redemption, not exceeding their face value; and such change in the law relating to reserves as will render the same flexible and available for use in the time of great stringency.

On Tuesday last the U. S. Senate, after a long discussion, refused to pass the Financial bill over the President's veto, by a vote as follows: Yeas, 44; Nays, 80. All the Infidelity Senators voted to pass the bill over the veto.

Chicago, April 27.—In the Criminal Court of this city, Judge Gary sentenced Dr. Paul Schoeppe, convicted of forgery, to three years in penitentiary. His counsel declare their intention of taking the case to Supreme Court on writ error.

### Protect Your Buildings!

Which may be done with one-fourth the usual expense by using GLINES' Slate Roofing Paint & Cement. Send for Testimonials. AGENTS WANTED IN EVERY TOWN.

A roof may be covered with a very cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the Slate, for **One-third the Cost of Re-shingling.** The expense of Slatting new Shingles is only about the cost of simply laying them. The Slate is FIRE PROOF against sparks or flying embers. For tin and iron it has no equal, as it expands by heat and contracts by cold, and never cracks or scales. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is **Extremely Cheap!** two gallons will cover 100 square feet of shingle roof, or over four hundred of Tin or Iron. Price ready for use is 80 cents per gallon, with a liberal discount to the trade.

### No Tar is used in this Composition.

On decayed shingles it fills up the holes and pores, hardens them and gives a new substantial roof that will last for years. Curled or warped shingles, it brings to their place and keeps them there. It fills up all holes in Tin or felt roofs, and stops the leaks, one coat being equal to five of ordinary paint. The color of the Slate when first applied is dark purple, changing in about a month to a light uniform slate color and is

**TO all intents and purposes, Slate.** Orders respectfully solicited. For full information address, N. Y. SLATE ROOFING CO., No. 6 Cedar Street, New York City. May 2-m1
